**THE NEXT TIME
SATAN REMINDS YOU
OF YOUR PAST,
REMIND HIM OF HIS FUTURE.**

Praise Report!

For the last month or so a tooth that had a crown on it was becoming increasingly sore. I also was losing gum tissue around my front teeth and the last time I was at the dentist, she told me if the tooth with the crown started to act up then a root canal would need to be done.

I already knew about the study that showed a

tie between root canals and heart attacks. (1) I ruled out this possibility right away.

As the infection of the tooth progressed it became impossible to eat on that side as well as the shooting and throbbing pain made it very hard to sleep.

I prayed to Yahuah and asked to be healed from this as I wanted Him to be my dentist. I also began to research and The Ruach led me to various sources that showed me not only how to help with the immediate tooth pain, but to get rid of the infection that was settling in my jaw.

At first I wasn't sure if I just shouldn't "wait for the miracle healing", but as I researched, I realized that just as the Ruach leads us in Scripture, this too, was how I was being led.

I can only say for myself, but when I pray for wisdom, I have never woken up the next day a Scriptural Einstein.

I realized the miracles I sought were already there, just as the miracle of understanding Scripture is already there, we just need to ask to be led by the Ruach for understanding and application.

Confirmation

Action. Health.

When I put into action the natural remedies, (2-15) I found my tooth immediately began to feel better. I still have more healing to do but I can say that I no longer fear a root canal or having to pull the tooth or losing any of the rest of my teeth. It was cheaper than the dentist and required no *pharmakeia!*

This is a learning cycle I will repeat on all levels of healing. PRAISE YAHUAH!

It was so interesting how little confirmations come to us as well from outside sources. We have been listening to David Pawson, a Christian pastor from England who is very aware how important the Hebrew roots are to knowing and understanding Yahuah. He has a teaching called "De-Greecing Scripture" (16) that is really awesome, when you think of who he is preaching to. He does not call on the Hebrew names nor keep Sabbath, but there are still nuggets we can glean from folks who are trying.

I was listening to him and he spoke about how when Abraham sought a wife for Isaac he didn't just pray for one but put into action to go find one. He said how often women wait for Yahuah to send "Mr. Right" to their door, instead of going out and mingling and then praying, "Yahuah, is this the one?"

He is right! Hebrew is an action language! I still have Greece thinking, wanting to be shown the miracles and not doing any action. By actively seeking knowledge I may be lead and by continual prayer, learn discernment and learn the voice of the Ruach!

What a blessing this toothache was for me!

A man was on his roof as flood waters were rising and he was in danger of drowning.

He prayed to Yahuah to please perform a miracle and save him.

Soon after a rescue boat came by. They beg him to get in but he says "No thank you, Yahuah will bring a miracle and rescue me".

A helicopter was sent and still the man would not go up. He said, "No thank you, Yahuah will bring a miracle and rescue me."

Sadly the waters keep rising and the man drowned. When he sees Yahuah, he said, "Oh Almighty Yahuah, why oh why did you not bring a miracle and recue me?"

Yahuah said, "I sent you a boat and an helicopter, what more did you want?"

Moral of the story:

Miracles can be Natural or Supernatural.
We need to be careful not to miss a blessing just because Yahuah chooses to answer our prayers in ways that do not match our expectations.

Angels can appear as humans. Wisdom of natural healing has always been with us.

Let us use these blessings,

be thankful and

PRAISE YAHUAH!

Tooth and Gums

Healing. Preventive.

What I did for the tooth pain was put Clove oil mixed with Coconut oil on a swab and put it right on the tooth and gum. 2-3 minutes later the pain was gone and stayed gone for hours.

I also beefed up my second immune system using Mild Silver Colloidal Protein-Not the normal kind you buy in the health food store or make yourself that can turn you blue. I took lots of food grade Vitamin C and Pau D' Arco as well as a Super Tonic and Echinachia Tonic and a food grade D3.

The most dramatic help this last week has been rinsing with warm sea salt water and baking soda. Also to brush with Calcium Hydroxyapatite to re-mineralize my teeth.

My tooth is almost back to normal and I have not needed the clove oil for a week. I no longer take the Silver daily or Super Tonic or Echinachia. I will continue the D3 and a good Organic Pro-biotic and Rose Hips (Vit C).

I will now only brush my teeth with peroxide, baking soda and sea salt.

Here are the links to the resources I have found.

Now that we are coming to uncertain times we should learn all we can about edible plants in our areas and natural pain killers and infection fighters while we still can.
